DETAILED ACTION

1. This action is responsive to communications: The RCE filed 09/25/06.
2. Claims 1-12 are pending in the case. Claims 1, 5, 7, 8, 9, and 12, are independent claims.

Drawings

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings submitted with the application are handwritten and are not clearly labeled and are not readable. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Information Disclosure Statement

4. The information disclosure statements (IDS) submitted on 09/25/06, 11/06/06, 11/22/06, 12/01/06, 01/16/07, 01/22/07, 01/29/07, 01/30/07, and 02/02/07 have been considered by the examiner.

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Art Unit: 2178

6. Claims 1-4 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 1-4 are considered non-statutory under 35 U.S.C 101 for not producing a tangible result. The focus in this case is on the result and not the steps or structure used to produce the result. Claims 1-4 currently utilize a data structure to monitor text strings and then associate a particular path with a special attribute in response to detection. Associating a form of data with another form of data in a data structure is not considered to be a tangible result.

Appropriate correction is required.

Allowable Subject Matter

8. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
